

Registering Remote Utilities

The *Viewer* module works in trial mode for 30 days. In order to use the program beyond the 30-day trial period, you must register the Viewer with a valid license key.

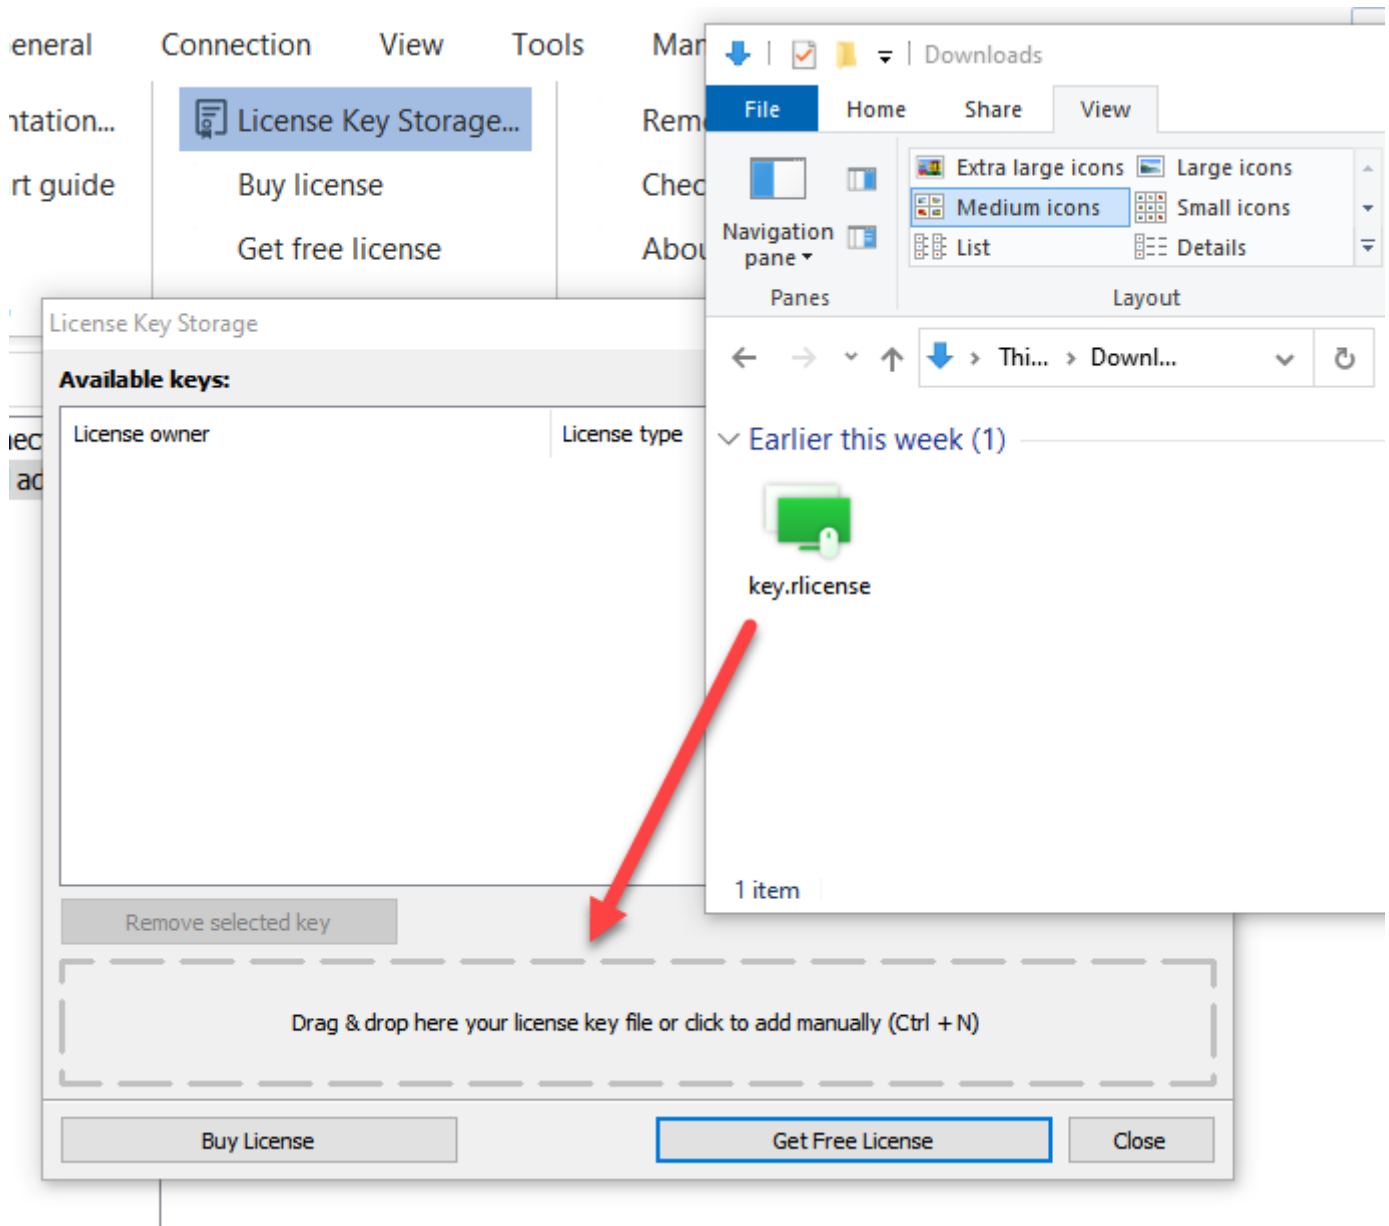

Other program modules (*Host*, *Agent*, *RU Server*) do not require registration.

Registering the program

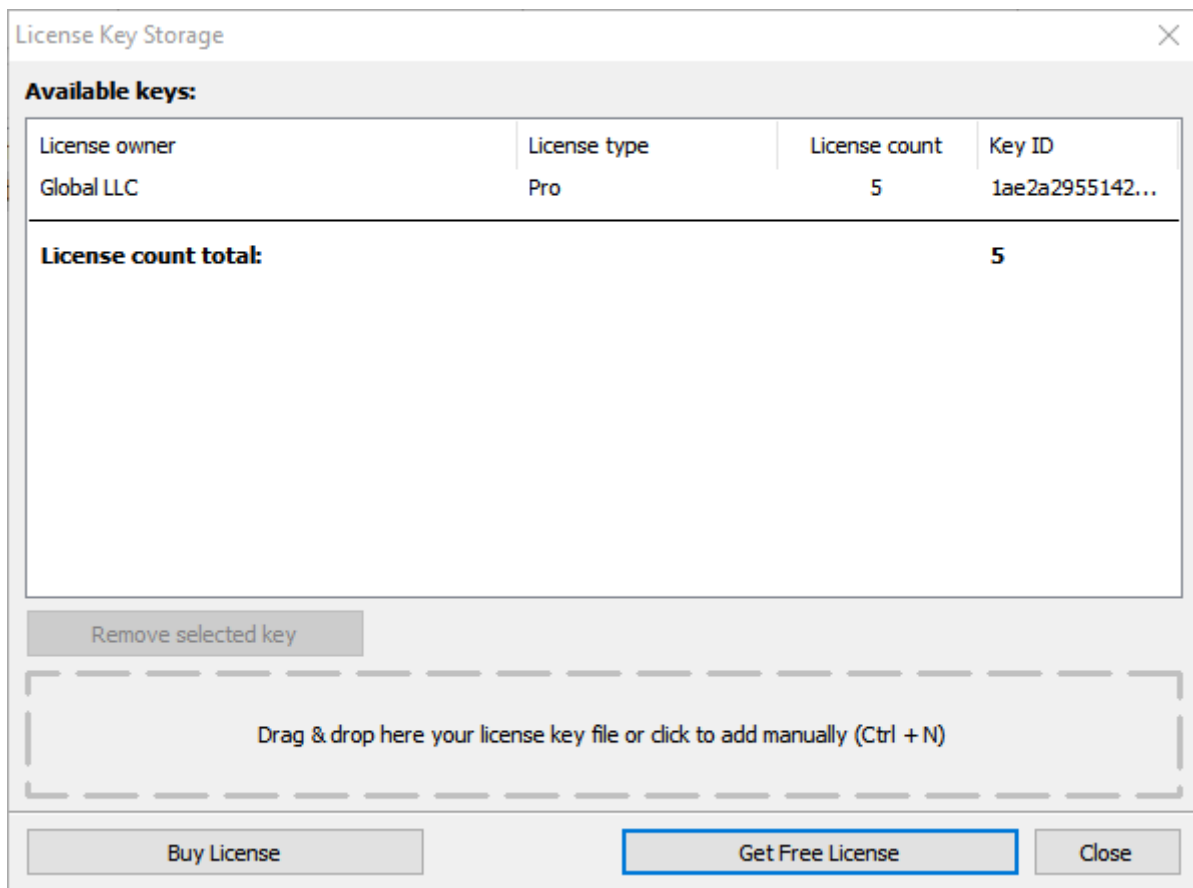

1. Select **Help** → **License Key Storage**:

2. Drag the license file *key.license* into the **License Key Storage** and release:

3. This will add your license key to License Key Storage and register the program:

4. Click **Close**.
